SUMMARY

I'm a final-year computer science student, driven by an insatiable curiosity for technology, particularly in the realm of web development. Delving into the wide world of technology has been a passion during my studies. From understanding complex algorithms to diving into the latest trends in web development, my drive for innovation keeps me moving forward. As I near the completion of my degree, I'm eager to channel this enthusiasm into addressing real-world challenges in web development

PROJECTS

GOOGLE SEARCH

<https://nrd-google-search.netlify.app>

Building a Google search clone while learning **React** was an incredible experience. The project offered a deep dive into various aspects, allowing me to learn extensively. I implemented numerous features within the app, and for styling, I utilized **Tailwind CSS**.

- Search functionalities with *Google custom search api*
- Pagination
- Responsive Design

EDUCATION

+2 Science

Devi Secondary School

2017 - 2019

- With major in math

GPA

3.1 / 4.0

Bsc.CSIT

SHREEYANTRA COLLEGE

2019 - Present

- Computer science and Information Technology course.

TECH STACK

Programming Languages

C/C++

Java

JavaScript

C#

Web Technology

HTML

CSS

Tailwind CSS

React

Node

.Net

Databases

SQL

Mongo db

STRENGTHS

Coding

Understand, plan, code, test, refine, integrate.

Designing

Capable of responsive User Interface design.

Database Administration

capable in managing, maintaining, and optimizing databases for organizational needs.
